## CAREER OBJECTIVES

---

A highly motivated and passionate Machine Learning enthusiast with strong academic background and hands-on experience in deep learning, model optimization, and MLOps best practices. Eager to contribute as a Junior Machine Learning Engineer by developing scalable ML pipelines, deploying production-ready models, and collaborating with cross-functional teams to solve real-world problems. Committed to continuous learning and staying current with state-of-the-art AI research.

## EDUCATION

---

**BSc. in Computer Science and Engineering** 2022-2026  
Khulna University of Engineering & Technology (KUET)  
**CGPA: 3.70 out of 4.00**

**Higher Secondary Certificate (HSC)** 2018-2020  
Shahid AHM Kamaruzzaman Govt. Degree College, Rajshahi  
**GPA: 5.00 out of 5.00**

**Secondary School Certificate (SSC)** 2016-2018  
Rany River View High School, Bagmara, Rajshahi  
**GPA: 5.00 out of 5.00**

## THESIS WORK

---

**Title:** Design & Optimization of Low-Compute Vision Architecture for Resource-Constrained Environments.

Applied mixed-precision quantization (3/3, 4/4, 6/6 bits) to compress Vision Transformer (ViT) models, reducing model size and computation while maintaining accuracy for efficient edge-device deployment.

Gained practical knowledge of model compression, TensorFlow/PyTorch, and deployment considerations for production.

## TECHNICAL SKILLS

---

- **ML/AI:** TensorFlow, Keras, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib, Hugging Face Transformers, OpenCV
- **MLOps & DevOps:** Git/GitHub, GitHub Actions, Docker (basic), MLflow, CI/CD concepts, Azure ML (basic)
- **Programming:** Python (advanced), C, C++, Java, SQL
- **Mathematics:** Linear Algebra, Calculus, Probability & Statistics
- **Databases:** MySQL, PostgreSQL, SQLite, Firebase
- **Web & Mobile (supporting):** Django, Laravel, Android (Java), Swift (iOS)
- **Other Tools:** Jupyter Notebook, LaTeX, REST APIs

## PROJECTS

---

**Bangla Book Recommendation System** 📄 | Django, Scikit-learn, SQLite

- Full-stack website that recommends Bangla books using collaborative filtering and content-based ML algorithms. Implemented data preprocessing, feature extraction, and model evaluation.

**Railway Management System** 📄 | Android, Java, Firebase, REST API

- Android app with role-based access (admin/user). Managed real-time schedule updates and ticket booking – practiced database design and API integration.

**Cardiac Recorder (Team Project)** 📄 | Android, Java, SQLite, Firebase

- Health monitoring app with offline/online sync, data filtering, and basic statistical analysis of heart rate trends.

#### Grocery Shopping Web App | PHP, Laravel, MySQL

- Responsive e-commerce platform with user authentication, product management, and checkout – demonstrates full-stack competence.

#### Recipe Book (iOS) | Swift, SwiftUI

- iOS recipe manager – team project focusing on clean UI and persistent data storage.

### PROBLEM SOLVING

---

#### Solved 700+ Problems on Online Judges

*CodeForces, LeetCode, CodeChef*

- **CodeForces (RYAD08)** : 400+ problems solved
- **LeetCode (Robiul.Riyadh)** : 150+ problems solved
- **CodeChef (ryad)** : 50+ problems solved

### ACHIEVEMENTS

---

#### Dean's Award, Faculty of EEE

**2021–22**

*Academic Excellence*

#### 8th Position - Team Contest

**2023**

*SGIPC Programming Contest*

#### 11th Position - Individual Contest

**2023**

*SGIPC Programming Contest*

#### 62nd at Datathon in BitFest KUET

**2025**

*CSE FEST 2025 — data science & ML competition*

### LANGUAGE PROFICIENCY

---

- **Bengali:** Native
- **English:** Proficient (Reading, Writing, Speaking) – confident in communication with foreign clients

### EXTRACURRICULAR ACTIVITIES

---

#### Bit2Byte - Software R&D Community

**2022-2026**

*Member*

*Khulna University of Engineering & Technology*

#### SGIPC - Programming Contest Group

**2022-2026**

*Member*

*Special Group Interested in Programming Contest*

#### BitFest 2025 - CSE National Festival

**2025**

*Event Organizer (24-hour Hackathon)*

*KUET*
